

83 with respect to sublimates King & Azzi (644) ✓
nature does not depart from his primitive
model

90 did Geoffroy state never new organ -
in relation to Electric Fishes 94. "Nature
always works with same materials"

142 on parallel series of ~~self~~ Geoffroy

165 Goethe believed in Balancement

167 - Believed in change of species, as did Linn
Geoffroy, "modifications ambiantes" "sur l'
organisme!" - Yes this is his belief 247
Introduction in Preface

257 Distinction between tamed & domestic

260 On animals not breeding; Rees - seen
good case of animal not breeding
not interfering with being domesticated.
in Ch. 2. Ind. add to case of goose.

281. argues well that I. Linn's doctrines of
sociability not only key to domestication
286 so.

292 Pallas Spicilegium Zoologicum

297 Art. Mammals. Incl. Clap. Hist. nat. - on colour of
Domestic quadrupeds. (2)

298 Cat intestine longer

299 Dog with split nostrils

306 We have no case of Blacker Spaniel or
Blood Head or with Savages. (18)

344. Mammals in close sub-group. It is
difficult to find in size.

350 Remarks on small - it being small
mammals - see how small it is

Mammals in Melay Archipelago. - 353 pages
Java & Sumatra! I contradict his statement, that -
think of S. America formerly.

382 insist on difference of size in allied dogs.

381. Table of measurements. -

all I need say is that author has
insisted strongly on difference in size
compared to wild species

433 old Geoffroy on degree of influence of
external condition on species -

Mem. Acad. Sci. X. 11. 1793. -

442. Madagascar a fourth continent.

445 Ceylon same menarche with India

491 on spots & on young guinea pigs

493 Crp between gold, silver & common
pheasant just mentioned. (2)

496 cases of ten species of Birds which
have assumed male plumage

506 changes of habit in Ad Hen like
cocks

513 Horns growing on Ad female Deer

516 - This land of mangroves & Hybrids.
